Add the Pooling Layer

The screenshot shows a Jupyter Notebook interface within Visual Studio Code. The notebook is titled 'model.ipynb' and the current cell is titled 'Adding pooling layer'. The code in the cell is:

```
model.add(MaxPooling2D(pool_size=(2,2)))
```

The code is written in Python. The notebook has a dark theme. The status bar at the bottom indicates 'Jupyter Server: Local', 'Ln 1, Col 19', 'Spaces: 4', 'CRLF', 'Cell 13 of 14', 'Go Live', 'Prettier', and a search icon.
